

# The Chauvin Chronicle

AN INDEPENDENT WEEKLY NEWSPAPER CIRCULATING THROUGHOUT  
ARTLAND, CHAUVIN EDGERTON, RIBSTONE, MERTON, SIFTON, & MANITOU LAKE

VOL. 7: NO. 357 CHAUVIN, ALBERTA, WEDNESDAY MARCH 30th 1921 5c. per copy \$2.00 per year in advance

## Airlie Notes

Mr. Dave Dundass of Wainwright was visiting at F. Cargill's Saturday.

Mrs. H. Butler went to Wainwright Friday to visit Mr. and Mrs. Dundas.

Mr. and Mrs. F. Scott of Stanmore were visiting at F. Cargill's, sawing wood in this district.

The Athletic Association will hold a meeting in Airlie Schoolhouse March 30th at 7 o'clock.

George Wilson one of our popular bachelors has been visiting in Edmonton.

Joe Farrell has gone to visit his brother at Gainsford, Alta.

The ladies of the Airlie district will hold a dance April 8th. A collection will be taken the proceeds to go towards the forming of a Basket Ball team. Ladies please bring baskets.

The musical services of Mr. McKague and son at the annual dance was much appreciated.

## AIRLIE U.F.A.

Airlie U.F.A. held a social and business meeting in the school house March 23rd. There was a large attendance. The meeting was called to order by President, J. A. Craddock. Minutes of previous meeting were read. Moved G. Gibbs—C. R. Matheson that same be approved as read. Carried.

Moved C. Matheson—W. Montgomery that W. G. Harris be director to live Stock shipping Association. Carried.

Moved C. Matheson—H. Butler that gentlemen pay 10c. for tea served at social evenings. Carried.

Moved C. R. Matheson—Sid Harris that we maintain our Athletic Association. Carried.

Moved Sid Harris—C. R. Matheson that all who wish to join the Athletic Association enroll tonight. Carried.

Moved Sid Harris—V. Bagley that Athletic Association have a separate Sec.-Treas. Carried.

Moved V. Bagley—W. Scott, that J. A. Craddock be President of the Athletic Association. Carried.

Moved C. R. Matheson—V. Bagley that Sid Harris be Secretary of the Athletic Association. Carried.

Moved E. Matheson—Sid Harris that J. A. Craddock be manager of Baseball Team.

Moved G. Gibbs—C. R. Matheson that F. Cargill be manager of Football Team. Carried.

Moved C. Matheson—G. Gibbs that U.F.A. support Athletic Association. Carried.

Meeting adjourned to the singing of "God Save Our King"

## Hockey Notes

The Chauvin hockey club will play Unity hockey club for the Dawson Cup, at Wainwright to-night.

## Correction

In the matter of Oliver Gang Plows as advertised by J. A. Proctor, of Artland, we received instructions to remove the price figures therefrom. The pages having already gone to the press, we were unable to comply with the request. Proctor can supply the plows, but the old price alone is withdrawn.

## Ribstone U.F.A.

Special meeting of Local No. 867 at the Municipal Hall, Ribstone Friday March 11th.

Minutes of previous meeting were read and accepted.

Committee reported regarding Hall and having met the Institute executive. It was decided to leave the renting of the Hall to the Womens Institute.

Burton—McCrea, that the directors secure orders in their own wards: for Gopher Poison and Binder Twine, also report at next meeting. Carried.

Discussion followed regarding concert troupe from McCafferty.

Osburn—Burton That we drop concert idea until after seeding. Carried.

Nicholson—McCrea, that Secretary order twenty annual reports for members. Carried.

Considerable correspondence read and discussed.

Reading of Educational Questionnaire by womens committee.

Mrs. McCrea—Mrs. Burton, that Educational matters be left till next meeting and question be dealt with separately and in rotation. Carried.

Donation of spoons, knives and forks from Mr. Masters were received by a vote of thanks.

Nicholson—Burton, that we adjourn.

16 members present.

## Chauvin W. I. Notes

You won't forget the "Daffy Party" Friday night under the auspices of the W. I. will you?

There are games and competitions, some old-fashioned, truly. But its good to be old fashioned sometimes and its a courtesy to one's elders. Please don't look bored if you should discover a minuet of fifty years ago mixed up with the trots and one-steps. But we forget, you are much too well bred for that.

Its only fifty cents.

The W.I. plan to start a story-hour in the rest room every Saturday afternoon. Mothers may leave their children carefully looked after as well as entertained. There will be two ladies in charge each Saturday, one for the older and one for the younger children. Further details in regard to this will be given very shortly.

## Ribstone W. I. Notes

We understand that the Ribstone Womens Institute had a good time at the pie social and play on Thursday March 24th. The official report, however is not to hand. We trust to receive the same in time for publication next week.

## Fram G. G. A.

The meeting to be held on Saturday, April 2nd 1921 promises great ness to be transacted Mr. Jas. W. Coe, J.P. will give an address. The things in store a good crowd is fully expected. The directors held a meeting last Saturday evening at the home of Mrs. Axel Gabrielson and much important work was done. No stone is to be left unturned to make the Fram Local a success. The Social side is being well looked after. All that is now needed is the co-operations of the residents and that is coming more rapidly than was at first hoped for. Be on hand on Saturday next at 8 p.m. and do your part.

The regular meeting of the Westminster Ladies Auxiliary will be held at the home of Mrs. C. C. McKechnie at 3 p.m. Thursday, April 14th.

## Wheat Grain For Market With Profit Oats At A Loss

Does it pay to raise grain?

Upon the answer to this most important question rests the success or failure of the farmers of this district.

It is not to be inferred that the writer advocates the practise of all-grain farming. The writer only wishes to state that in order to be successful in mixed farming, it is absolutely necessary that we should, as a minimum, be able to raise grain profitably.

The experimental farms are able to give from time to time, figures that show the cost of raising grain on the farms under government control; but there is reasonable basis for doubt whether grain can be raised at the same figures on local farms, under conditions prevailing locally, and under the individual direction and work of an ordinary farmer.

We are now able to publish a set of figures, by the courtesy of Mr E. A. Pitman. Mr Pitman farms two miles north-west of Chauvin, he keeps records of the cost of production, and he strives to produce the best varieties of grain (and livestock)

The following figures are his tabulation of the cost per acre of raising his Kitchener wheat (with which he won the sweepstake at the Chauvin Seed Grain Show)

COST PER ACRE GROWING KITCHENER WHEAT AT CHAUVIN; SEASON 1920	
Seed .....	3.00
Plowing .....	3.50
Harrowing .....	1.00
Seeding .....	1.00
Packing .....	.60
Cutting .....	1.00
Stooking .....	.75
Twine .....	.60
Threshing .....	7.80
Interest on Investment, Taxes c	3.65
Total Cost .....	22.90

Upon this land, at a cost of \$22.90, a yield of 37 bushels per acre of pure Kitchener wheat was raised. This brings the cost of production of this wheat, up to the time it is placed in the granary at a trifle in excess of .61c per bushel

(Continued on inner page)

## Basket Ball

On Saturday afternoon, April 9th at 4.00 p.m., immediately following the meeting of the Trustees of the School Fair Association, there will be a meeting of those interested in forming a Basketball League. In the Ladies' Basketball, the local school is intending to enter two teams and the teachers one team. The ladies of the town will probably enter another. If Edinglassie, Roros, Airlie, Prosperity, and any others who wish to play, send a representative, a strong league should be organized.

If the men would like to organize a league, it could be easily arranged at the same time. One ball will serve for all the local teams and it might as well be used.

The school boys are also anxious for the Athletic club to hold an organization meeting in the near future. They have a budding baseball team and wish to see a local baseball league formed, of which they would form a constituent part.

## Veterans Concert A Big Success

The concert and dance organized by the Chauvin Great War Veterans was held in the Oddfellows Hall, Chauvin Monday evening, March 28th was in every sense of the word a big success.

The wretched condition of the trails was undoubtedly instrumental in debarring a number coming in from the outlying parts of the district, and a heavy wind and rain storm coming up at just the time people were about to leave home for the concert checked others. But the fame already won by our local veterans drew a full house nevertheless.

The program was opened with a short speech by G. M. Beattie, who briefly outlined the growth and work of the Great War Veterans Association from the time of its inception in Winnipeg in 1916 until the present time.

The next item on the program was a burlesque, "A Tribunal Scene" in which a number of very clever local quips were introduced. This was followed by several scenes, among which we may mention the Crown and Anchor Game which was disturbed by the stern necessities of duty in the shape of "Fall In" and the arrival of Lt Col Stackpool, D.D., who read the battalion orders. The Awkward squad were next detailed to duty, followed by the Guard Mount and the Orderly Room scene. The Lt-Col's address to the men about to leave for the lines was profoundly sympathetic and sufficient to stir the emotions of all

(Continued on inner page)

## Notes from North East

A pitiful fact. Easter passed with less notice than ever this year.

The Grain Growers Association meet on Saturday, April 2nd at 8 p.m. Mr. Jas. W. Coe, Secretary Manitou Lake G. G. will address, we hope a crowded meeting.

A pool room in Artland. What shall we come to next?

Registered letters for all shareholders in the Manitou Lake Telephone Company last week. More money needed for extensions.

The farmers around are already predicting how many bushels to the acre this year. In any case it is to be hoped that some scheme may be formulated by which the farmer may receive a proper and fair recompense for the hard work and long hours he puts in the field.

Mr. and Mrs. Jno. Graham are entertaining a relative from "Old Erin" at Icilibien Farm.

Reports of those who attended the sale at Harry Gibbard's last Thursday point to high prices being the order of the day.

## Millinery Opening

Miss Coleman, of Wainwright will visit Chauvin Tuesday and Wednesday April 12th and 13th, and will hold a Millinery Opening, in Roy's where she will have a choice display of spring hats for ladies and children. All the newest styles and colors and materials and all moderately priced.

A dainty selection of ready-to-wear models. Any shape and style made to order.

## Black Polled Angus Comes By Express To E. A. Pitman

A very valuable addition to the pure bred stock of the Chauvin district arrived by express last Saturday.

This was a real outstanding bull-calf of the Prie of Aberdeen family, sired by Blackcap McGregor, the premier Black Polled Angus Bull of Canada, raised by J. D. McGregor, of Brandon.

E. A. Pitman, one of our pioneer farmers, is the owner of this splendid animal. He has also purchased from the same source, a cow, with calf at foot. This cow will be shipped to Chauvin when it has again been bred to one of the famous bulls of the breed.

Prior to the war Mr Pitman had made good progress in building up a pure bred herd. He sacrificed the whole at the call of the empire. He is now engaged, at great expense, in rebuilding his herds. The whole community, we feel assured, wish him success in his enterprise.

## District Oddfellows To Celebrate 102nd Anniversary; Chauvin

Sunday May 8th is to be a red letter day in the history of the local Oddfellows and Rebekahs. The members of these orders from Edgerton and Wainwright will visit Chauvin on this day to celebrate the 102nd anniversary. A public service will be held in the Oddfellow Hall, early in the afternoon, at which Rev. Bro. Maddocks, of Edgerton and Rev. Bro. Priestley, of Wainwright, will officiate.

## Alberta Dragoons

The C. (Chauvin Squadron of the 19th Alberta Dragoons is already 54 men strong. Enrolments are still coming in and are welcomed. Attestations will be received at any time at the office of A. E. Keith.

The daily orders can be read at any time, they are displayed at Geoge McNutt's pool room and barber shop.

Eight enrolments were made at the War Veteran's concert.

## May Link Up Phones

The Alberta government have entered into correspondence with the Saskatchewan government regarding making telephonic connection between the Alberta government line and that of the Manitou Lake Rural Telephone company lie at or near Butze.

We are given to understand that both governments view the matter in a favorable light and intend to have the work done in the summer months.

## Shetland Pony Arrives By Express

George Reynolds received by an express shipment, last Thursday, from Edmonton, a very pretty little Shetland pony. The animal arrived in good condition, and seemed to have enjoyed its somewhat unusual trip.

Continental Germ-Free Blackleg Filtrate in doses of fives, tens and twenties, may now be obtained at The Chauvin Pharmacy Same price as from Winnipeg Veterinary and Breeders Supply Co.

Majorities may not always be right but they get the benefit of the doubt.

PROPOSED CONSTITUTION  
AND BY-LAWS: CHAUVIN  
AGRICULTURAL SOCIETY

Article (1) Name of the Society shall be the Chauvin Agricultural Society.

(2) The purpose of this Society shall be:

(a) To encourage by the offer of competition for the better development and advancement of our livestock industry, particularly purebred and in field and garden products.

(b) To stimulate interest in agriculture amongst the young people by the introduction of educational features, calculated to appeal to them.

(c) And to be an educational factor generally by providing means of competition along lines which make an appeal to rural communities in general.

(3) Any person desirous of becoming a member may do so on payment of \$1.00 annually, if duly approved by the Society.

(4) Officers of this Society shall consist of a President, first and second Vice-presidents, who shall be ex-officio directors, and a directorate up to the number of 15; also a Secretary or Secretary-Treasurer, and an official Auditor. All these men or women, shall hold office until the next annual meeting. But if for any cause a director wishes to resign his directorship, he or she shall notify the Secretary in writing, whereupon the Directors will take steps to appoint another director.

(5) No member, who has not paid

his annual fee, shall be eligible for office, but he may become so by paying it to the secretary, on or before the day of the annual meeting.

(6) Election of President, Vice-Presidents and Directors shall be by Secret Ballot.

Secretary-Treasurer, who by pleasure of the directorate may also be a director, shall be appointed by the directors at the close of the Annual Meeting.

(7) The Secretary or Secretary-Treasurer shall be bonded for such amount as directors deem advisable, and such bond shall be renewed yearly and forwarded to the Department of Agriculture.

(8) Secretary shall send out all notices of meetings, approximately ten days ahead of the meeting.

(9) Secretary shall submit all correspondence and business pertaining to the Society as soon as possible after he receives them.

(10) Ten members shall make a quorum for the Annual Meeting, and five for a Directors' Meeting. Secretary shall call the roll at the close of each Directors' Meeting. At the year's end directors found to have been absent half the meetings shall not be considered to be in good standing for re-election, unless they can show good and sufficient reason for such absence.

Meetings for the directors shall be held monthly, if possible, at the call of the President and Secretary. Special meeting of the directors may be held by request of three directors in

writing to the President.

(11) Directors, accepting office, shall be expected to show their interest in the cause of agriculture, and their appreciation of the honor done them, by making a donation to help the financial needs of the Society or by taking an active part in furthering the Society's interests by a friendly propaganda, or by both donation and propaganda.

(12) Directors who on Fair Day are also exhibitors, shall have the power to choose suitable substitutes, approved by the directors, to do their work in the department of which they have charge. But the Director and not the Secretary shall be responsible for all errors made by their substitutes.

ORDER OF BUSINESS FOR ANNUAL MEETING

(1) Reading of minutes of previous meeting.

(2) Addresses and reports of officers.

(3) Reports of Committees.

(4) Unfinished Business.

(5) New Business.

(6) Addresses and Discussions

(7) Election of Officers.

(8) Adjournment.

(13) With the exception of items, 2, 6, 7, the order of business for directors' meetings shall follow the above order of business for the annual meeting.

(14) Meetings of the Society, other than the annual meeting, may be held at any time that the board of directors may determine.

(15) The board of directors shall at the annual meeting, present through the secretary, if need be:-

(a) Report of the year's work, special mention of success, or otherwise, of any new or special feature introduced by the Society in the current year.

(b) A statement of donations by members or directors.

(c) A detailed account of the receipts and expenditures of the Society for the current year, certified by the auditor.

(d) A statement of assets and liabilities also certified.

(e) A statement of amount offered, and amount actually paid in prizes for each kind of live stock, agricultural or domestic product, school work or junior classes, and the entries in each class.

(f) A report of the bi-annual Institute meetings with the names of the speakers and the subjects of their addresses with comment on the interest or lack of interest shown towards these meetings.

heart of commercial life and made thriving cities out of paralytic villages. Natural advantages count for much, and prosperity cannot be built on shifting, but any town with half a chance can be made to grow and ex-join with one accord in the boosting program.

Wheat Surplus

The wheat surplus for export and carry-over of Canada and the United States is 165,000,000 bushels, according to government official estimates. The combined crop of the two countries and carryover from the 1919 crop is placed at 1,163,000,000 bushels.

According to department officers the exporting countries now have 293-000,000 bushels of surplus wheat while import requirements of countries that can buy wheat are 260,000,000 bushels leaving a net surplus of 33,000,000 bushels. Wheat available from Argentina is said to total 120,290,000 bushels

Reading the advice to the lovelorn that is a feature of some papers, one would imagine that the author was some old maid who would give a week's salary for one good tight squeeze with trimmings.

Love thy neighbour as thy self.

There should at least be a stable market for corn, oats and hay.

What Makes A Town

What makes a town anyway? Is it the wealth evidenced by fine and splendid store buildings? These may attest the stability and thrift of certain people, but they offer no great inducements to commercial and moral progress. It is the spirit of good order and law observance? That is a factor only. The sleepiest old hamlets that dot on the map have this spirit in rank abundance. Is it the churches and schools? May their number ever increase, but they don't make a town—they culture it. Is it the geographical location, the character of the country surrounding, the shipping facilities, the natural advantages? None of these is an essential. Well, what is it that makes a town, anyway? Just one thing—the unity of the people, the existence of a common bond which causes business and social enemies to put aside all difference when it comes to boosting a town. No town ever made real progress on the way to substantial success without the get together spirit unanimously adopted. It has rejuvenated old hulks of towns that were yawning their way into endless sleep. It has infused new lifeblood into the

Chauvin Agricultural Society Column Diseases Of Wheat

(Experimental Farm Note)

The most common diseases of wheat such as rust, smut, scab etc., are all caused by microscopic plants called "fungi," by the much smaller "bacteria" are also known as "The Black Chaff" and "The Basal Glume Rot." These diseases, and the characters of the bacteria causing them, have been definitely known for about five years. The former is doing considerable damage in the middle western United States and has not yet been reported in Canada, but we feel justified in describing it here so that the farmers maybe on the look out for its appearance. The latter has been found in both Alberta and Saskatchewan the extent of its damage, the samplest we examined have been badly affected.

The "Black Chaff" disease causes yellow, or translucent, stripes on the leaves, water-soaked, or black stripes on the stems, and more or less sunken dark stripes or spots on the glumes. in moist weather the bacteria often ooze to the surface of the diseased spots as tiny beads or drops which dry yellowish. The kernels in a diseased head are not infrequently very shrivelled and they carry the bacteria on their surface as a thin film or in great numbers in corroded cavities. In the States which have this disease they are combating it by careful

screening of the seed grain to remove as many of the shrivelled grains as possible, combined with treating of the seed in a solution of Copper Sulphate followed by dipping for a moment in milk of lime and drying. They also try to use seed which has been obtained from uninfected fields, and avoid manuring wheat or other grain fields with material from animals which have been fed diseased straw.

The "Basal Glume Rot" disease affects leaves, heads and grain. On the heads, the glumes show a dull brownish black area at their base, occasionally extending over the whole glume. Th grain enclosed by such diseased glumes shows varying degrees of under development, the base or germ end varying in color from scarcely noticeable brown to charcoal black, and in these areas bacteria are found in great numbers. In severe cases the germ end of the grain appears as if it had been charred.

If these diseases show a steady spread each year, they will have to be considered as of equal importance with rusts, and smuts, but if their prevalence is due to some climatic condition peculiar to the season in which they have appeared, for example in warm springs and summers of heavy rains and dews, then we may reasonably expect the diseases to be less prevalent in years when these conditions do not prevail, and the presence of the disease need not be viewed with much alarm. At present, however, nothing definite can be stated in this connection because of lack of knowledge as to its prevalence in Canada, and insufficient experiments on its control.

The division of Botany is conducting some experiments this season on the control of the Basal Glume Rot, and will be very glad to inspect any material which any farmer may suspect of having either of the diseases described above. Parcels weighing up to 12 ounces addressed to the Dominion Botanist, Central Experimental Farm, Ottawa, can be sent free of postage.

Millions spent for navies to insure peace might be spent in piecing out the comforts of the poor.

Don't refuse to go to church because there are too many sinners in it. The chances are you would find something to elevate you. Besides, you might as well refuse to go to a hospital because there are too many sick people there.

One of the most inconvenient things the new administration will have to put up with is the fact that every man who was eligible to vote at the recent election is eligible to a job now

RURAL MUNICIPALITY OF MANITOU LAKE, NO. 442.

BY-LAW NO. 1-21 OF THE RURAL MUNICIPALITY OF MANITOU LAKE, NO. 442

A By-Law Relating to Seed Grain Loans.

Under the authority of the Municipal Seed Grain Act 1917.

The Council of the Rural Municipality of Manitou Lake, No. 442, enacts as follows:

1. This Municipality may for the spring seeding season of 1921, advance seed grain on credit to resident farmers within the Municipality who, owing to bad crops or other adverse conditions, are unable to procure the same, and the council may, to enable it to make such advances, borrow upon the note or notes (Promissory) of the Municipality \$6,000.00 for the purchase of a supply thereof for distribution.

2. The purchase price of all grain advanced hereunder shall be secured by promissory notes due on demand and by registered seed grain liens in favor of the Municipality upon all crops grown from seed so advanced, and by the Registration of Caveats against the lands in question of which the advances are made.

RURAL MUNICIPALITY OF MANITOU LAE, No. 442

Notice Re Gopher Poisoning 1921

The Council of the Municipality are spending considerable money each year for poison for the destruction of money, they consider that it should be spent in such manner as to kill the most Gophers.

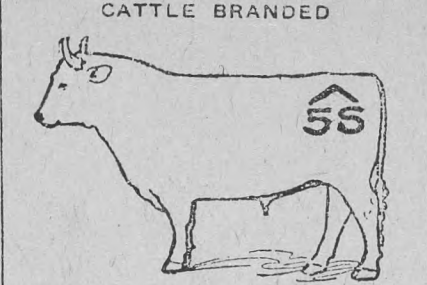

It is of no use for the council to get a supply of poison and have it used when the poisoners think they have time to put it out. This system is absolute waste of money, and as it your money the council ask that the Gophers will be poisoned as soon in the spring as they start to come out, and that another dose could be set out about two weeks after the first with good effect.

If any quarters are poisoned by a ratepayer and those adjoining are not poisoned in reasonable time by the ones whom should poison them, the council ask that the location of the unpoisoned quarters be given to the councillor of the division in which they are in these lands will then be

## OUR ADVERTISERS CAN COMPETE WITH THE MAIL ORDER HOUSES

It is commonly supposed that the chief duty of the editor of a rural weekly paper is to preach, in season and out of season, the gospel of "Buy At Home". Then there are others who venture to believe that the paper stands up for the town at the expense of the whole community.

For our own part we entirely disclaim to have any desire to boost the town at the expense, or detriment, of the community as a whole. Nor do we claim to have vigorously conducted a "Buy At Home" campaign. We certainly do admit running at intervals articles urging trading in the little home town. At the same time we may state that reference to our files will show that we have published articles pointing to the high cost of credit trading.

It is this high cost of credit trading that is one of the two most formidable barriers to profitable home trading. The second barrier is injudicious purchasing in regard to bulk. By this we mean, the too frequent purchases and the more expensive habit of buying goods in expensive packages containing but a minimum of contents.

We referred to these matters simply because the mail order buyer has already learned to cut out these wasteful methods of buying whilst the person buying at the home town still remains a wasteful buyer.

Economic pressure has been a means of eliminating credit in the local stores and thus one waste is now removed. It needs intelligent individual action to remove the other form of waste. (Our grandparents would be horrified at the cost of our packet-purchase system).

These introductory remarks lead us to our main purpose of writing this editorial. This purpose is to throw the challenging gauntlet to all comers in the

statement that Our Advertisers Are Able To Compete With The Mail Order House For Your Business, and that given opportunity, They Will Do So. This is direct

statement referring essentially to our general merchants and hardware men; namely G. W. Allan & Co., J. A. Montjoy, L. E. Roy, C. G. Forryan and Kregan & Borregard, of Chauvin; and Carpenter & Dell, of Ribstone. We do not and cannot make this statement in regard to those merchants in Artland, Chauvin, or Ribstone, who esteem your trade unworth seeking by advertisement in your local paper. We do make the statement, having regard to the premise of this editorial, and having regard that you allow the local merchant the same privilege as you already give the mail order house. By this we mean that you allow the local merchant sufficient time to procure the goods you require should he not have same in present stock.

The last condition is one of primary importance. It is not one for the sole benefit of the merchant alone, it is equally important to the buyer. For these reasons: The bigger the stock, the more capital is tied up—The bigger the stock, the less frequently it can be turned over, thence the necessity of larger profits;—and conversely; the smaller the stock the less capital involved and with the small stock turned over more rapidly, or bearing more frequent profits, the necessity of a large profit no longer exists. This is why we ask that the local merchant be allowed the same privilege as the mail order house.

We do not expect this statement to go unchallenged. Nor do we go so far as to say that in every instance the local merchant will be able to supply as cheaply, but we do assert that in the average \$50 or \$100 order of the general run of merchandise he will hold his own, freight considered.

The proof of our statement can only be tested by taking your list to the merchant, and allowing him to give you his quotation. It is then your privilege to decide.

## Veterans Concert

## A Big Success

(Continued from front page) present.

The second act was an estaminet scene, where the boys endeavoured to gain a place in the concert company, but without success. Their program was as follows:—

Chorus: "Here's to the Good Old Rum Song: O, O, It's a lovely War: by Pte Briskett

Recitation by Pte Splints

Song: Down by the Old Mill Stream: by Pte Bottlenose.

Trio: Two Rose: by Corpl Smutty, Pte R. U. Dunn and Sgt Major Spit Fire

Recitation by Pte McConochie

Song: Feather Your Nest: by Corpl Smutty 2 Feed

Violin Solo: R. U. Dunn

Recitation by Pte Slumgullionm

Song: The Veteran: by Sgt. Mjr. Spit Fire

Quartette: by Lt. Col Stackpool, Pres Slumgullion, Hawkins and Vere de Vere.

Chorus: by Estaminet maids

Humorous Chorus by entire company

Closing Chorus: Goodbye

Tableau: Tenting To-night

National Anthem

The estaminet scene was vivacious, and well presented. It was heartily received by the audience who gave very frequent applause, especially to Pte Slumgullion. Owing to the extreme length of the program, which lasted until eleven o'clock it was necessary to curtail the planned program and in this way the audience missed the well known song by Pte Hawkins, which has proved such a favorite with the Chauvin audiences.

The caste of the concert was:—

Lt. Col Stackpool, D. D., C. Murray  
Sgt. Mjr. Spit Fire G. M. Beattie  
Sgt Woodbine E. A. Pitman  
Pte Bottle nose C. J. Smith  
" Splints R. H. Mann  
" Brisket H. Foxwell  
" R. U. Dunn T. H. Saul  
" McConochie Jeff Swan  
" Slumgullion A. Tuoy  
" Vere de Vere D. A. Hiron  
" Hawkins A. Herbert

Cpl Smutty 2 Feed W. Cubitt  
Magistrate Sendup H. Quam  
Estaminet Girls: Florence Cahill, Eileen Ellis, Elsie McCluskey, Thelma Villa.

Music by the Chauvin Orchestra

The dance started about midnight and was continued until nearly four o'clock in the morning. Every body reports having had a good time.

The Chauvin Orchestra contributed some very choice interludes, and the music for the dance.

C. P. R. LAND AGENT,  
CHAUVIN, ALBERTA.

Wheat Grain For  
Market With Profit  
Oats At A Loss

COST OF RAISING  
ORDINARY OATS

The cost per acre of raising oats from just ordinary seed oats, which we carefully cleaned before used for seed, exactly coincided with the set of figures shown above for the Kitchener wheat. Mr Pitman states that the cost of culture was exactly the same as also was the cost of the seed, under conditions prevailing last season. The threshing bill for 65 bushels at .12c per bushel likewise paralleled the threshing bill for the wheat.

This land  
The common oats yielded 65 bushels per acre at a cost of \$22.90. Thus costing when first placed in the bin, the sum of .35½c per bushel.

COST OF RAISING  
LEADER OATS

Leader oats were also raised on this farm, and again the cost is parallel to the foregoing table, with the exception of items for Twine and for Threshing which were increased and bring the total cost to \$27.58

While the cost of production per acre was raised from \$22.90 to \$27.58 per acre, the yield was increased from 65 bushels to 104 bushels. And at the same time the cost per bushel is lowered from 35 .351-4c to .26½c

The inferences to be drawn from the above figures are of great value. Space does not permit us to deal exhaustively upon them. We may observe that it is only the fields giving a heavy yield that can bring a profit to the farmer. Because the Kitchener wheat yielded 57 bushels, it cost but .61c per bushel. Had the yield been one of 20 bushels, the cost would have been \$1.25 per bushel.

We may safely conclude it pays to grow wheat, and more especially if we

LITTLE ADVTS—BIG RESULTS

obtain the larger yields per acre.

The same cannot, this year be said of oats grown to market as oats.

Oats for the market were grown this season at a loss.

Whether the take the lower yield or the higher, the only difference is in the proportion of loss.

GOPHER POISON  
SEASON NOW ON

Just now is the time to get after the gophers. Strychnine, Gophercide Kill-Em-Quick, and Mickelson's, any one or all of which we sold before and are new to you. We want to tell you however that we have this year added a new one called "The Eveready Gopher Poison". Put up in tin cans.

The proprietors claim it is the handiest to use and poisons more grain per cent invested than any other poison on the market.

We know of many Rural Municipalities that use it exclusively. Try a can and see for yourself.

The Chauvin Pharmacy

M. D. RIBSTONE COUNCIL

The next meeting of the Ribstone council will be held at Chauvin, 1.30 p.m., Saturday, April 2nd

ERICKSON SALE WAS SUCCESS  
DESPITE PREVAILING STORM

The stormiest weather and cash terms are not sufficient to debar the success of an auction sale if the sale at Erickson's may be taken as a criterion. A good sale is reported, though near blizzard weather prevailed in the forenoon.

Don't growl about the things that don't go right—but don't be satisfied with something that can be done better.

Easter seems to be a peculiarly appropriate time for a woman to wear a hat that looks like a hen's nest

Alberta Fairs

Following are the dates set for Alberta fairs. These are often subject to revision by the superintendent of fairs and institutes, when the circumstances make this desirable. It is noted that a great majority of the dates are set for August this year.

- Medicine Hat: June 27 -28-29
- Calgary: June 29 to July 7
- Edmonton: July 8 to July 18
- Red Deer: July 18-19-20
- Camrose: July 25-26-27
- Lloydminster: July 25-26-27
- Sibbard: August 1
- Richdale: August 2
- Oyen: August 2-3
- Chinook: August 4-5
- Youngston: August 8-9
- Hanna: August 9-10
- Highland (Delia): August 11
- Big Valley: August 12-13
- Munson: August 15
- Priddis and Millarville: July 27
- Vulcan: July 28
- Carmangay: July 29-30
- Granum: August 1-2
- MacLeod: August 3-4
- Stavelly: August 5
- Claresholm: August 9-10
- Langdon: August 10
- Gleichen: August 11
- High River: August 11-12
- Okotoks: August 16-17
- Nanton: August 18-19
- Beaumont: July 26-27
- Crossfield: July 25-26
- Olds: July 27-28
- Innisfail: July: July 29-30
- Wetaskiwin: August 1-3
- Goose Creek: August 3
- Daysland: August 4-6
- Sedgewick: August 8-10
- Leduc: August 9
- Strome- Killam: August 11-12
- Constort: August 4-5
- Veteran: August 9-10
- Coronation: August 11-12
- Castor: August 16-17
- Stettler: August 18-20
- Lacombe: August 22-24
- Didsbury: August 24-25
- Ponoka: August 25 -26
- Alix: August 26-27
- Vermilion: August 1-2
- Manville: August 3
- Innisfree: August 4-5
- Vegreville: August 8-9
- Lamont: August 10
- Fort Saskatchewan: August 11-12
- Stony Plain: August 16-17
- Morinville: August 18
- Kitscoty: August 19
- Lethbridge: July 20-21-22
- Taber: July 25-27
- Winnifred: July 28-29
- Retlaw: August 2-3
- Lomond: August 6
- Magrath: August 9-10
- Raymond: August 11-12
- Cardston: August 16-17
- Rye Moor: August 1
- Bashaw: August 1
- Swalwell: August 4-5
- Three Hills: August 8-9
- Trochu: August 10-11
- Edgerton: August 2
- Wainwright: August 3
- Chauvin: August 4
- Eastern Alberta (Provost) Aug. 5
- Holden: August 15
- Viking: August 16-17
- Irma: August 18-19
- Warspite: September 5
- Bonnyville and Daringville: Sept 7
- Elk Point: September 8-19
- St Paul September 12
- Pierson: September 15
- Berry Creek: September 2
- Matziwan (Brooks) Septeme 6-7
- Bow Valley (Bassano) September 8
- Starland (Bowely) September 13,
- Tofield: September 15
- Hays (Louisana) September 5-6
- Rocky Mountain House: Sept 19-20
- Minerton: September 28
- Bowden: September 29
- Cochrane: September 29-30
- Athabasca: September 12-13
- Colinton: September 14
- Rochester: September 18
- Edson: August 31

PROVINCIAL DATES

In reference to the following schedule, the dates are provisionally

suggested, with the recommendation that the superintendent of fairs and institutes be authorized to make any change that may be found necessary, after he has had an opportunity to examine the conditions in said districts

- Westlock: August 24
- Mossy: August 24
- Paddle River: August 26
- Greencourt: August 30
- Sagudo: August 31
- Oneway: September 2
- Nakamum: September 6

- Mid-Pembina: September 8
- Busby: September 13-14

Eight towns in the province have been cut off the fair list temporarily for failing to send a delegate to the convention or to notify the official by wire or letter, and one town, Manyberries, has called off the fair because of poor crop conditions. The following towns were not represented and therefore have no dates fixed for them: Donnelly; Grand Prairie; Grillin Creek; Lake Saskatoon; Peace River; Spirit River; and Waterhole

FRESH GROCERIES UP-TO DATE HARDWARE

**Watch Your Step**

The basic alteration made in the Federal Income Tax law by the statutes of 1920 is that all responsibility now lies with the tax payer, without notification from the state, to calculate his own Income Tax and to forward to the Commissioner of Taxation before April 30th, 1921, his Income Tax Return together with a first payment of at least 25 per cent. of his tax. The tax payer must make application for Income Tax Forms which will be forwarded by the Commissioner of Taxation only on receipt of application.

For any error or omission intentionally or unintentionally in stating the amount of his income or for any delay in sending in his return or for any error in calculation of any installment of his tax, the law provides heavy penalties and fixes the exact sum which the tax payer must be fined. The government officials have no power to cancel or alter the amount of these fines by statute.

Notwithstanding that the tax to be paid may finally be levied under the business profits war tax act, every tax payer, whether individual, company or corporation, must forward a return under the Income War Tax act, together with payment of 25 per cent of the amount he would be taxed if his tax were levied under the Income War Tax act.

God intends man and woman to wed, and sometimes the devil seems to co-operate.

Getting the worst of it at some time has often turned out to be the best thing that could have happened to a person.

**Travel Will Prove Good Investment**

In every person's life at some time or other there comes a feeling of utter exhaustion, or as some say "Fed Up" with a general lack of interest in their everyday surroundings. Hard work is as a rule blamed for this condition, and little is done to remedy it until too late and the family physician is called. Work may be to a certain extent responsible for this condition, but the chief reason is the lack of a change, a relaxation of the mind. Get away for a few weeks vacation, see new sights and how the rest of the world live. Enjoy a change of climate. There are thousands of interesting places in Canada which may be enjoyed either winter or summer, and within easy reach via the Canadian Pacific Railway.

A trip at any season of the year send you back with renewed vigor, broader views and much wiser from the knowledge gained. A postal card to any Canadian Pacific Agent will bring you literature and information desired.

There's no reason for being unreasonable.

Pin money must be the kind you stick someone for.

English women say American women don't know how to walk. They know how to run their hubbies, how ever.

There's one thing about music on a phonograph—you can shut it off any time you want to without hurting the feelings of the performers.

**Good Clean Seed Will Increase Profits**

Increasing the acreage of crops grown on the farm does not always mean greater net profits. The latter, per acre, are very frequently quite small. If the yield, per acre, can be increased without raising the cost of production the increase in yield will all go towards increasing the net profits. Let us assume that a farmer's wheat crop yields 24 bushels per acre and that it takes 20 of the 24 bushels per acre to pay rent or interest on capital invested, and the cost of preparing the land, seed, harvesting, threshing, etc. This would leave 4 bushels from each acre as the net profit.

On a large proportion of farms uncleaned or improperly cleaned seed is sown. There is no excuse for sowing so much dirty and poorly graded seed. The fanning and grading can be done in the slack time and well ahead of the busy spring seeding. This grading would not add to the cost of production of the crop and the larger yield secured would substantially increase or, in many instances, double the net profit. Experiments conducted with oats at Guelph over a period of seven years showed the following results:

Large seeds	.....62 bush per acre
Medium seed	..... 54 " "
Small seed	..... 47 " "

Similar experiments with wheat, barley, rye and pears gave much the same results in each case. The small shrunken and split kernels are much more valuable for feed than for seed. Another great advantage obtained by fanning the grain for seed is that weed seeds are cleaned out. One way to prevent having weedy crops is to sow seed grain free from weed seeds. One weed seed sown may mean thousands of weed seeds produced in the next crop. Many of our worst weeds produce thousands of seeds per plant.

the rapidly swelling petition of the moderation leaguers asking for governmental control of the traffic. The prohibitionists claim that the vote on prohibition of interprovincial shipments was a mandate to the government a claim that is vigorously disputed by the moderationists, who assert that many electors voted for stopping interprovincial importation by private individuals as a step toward complete control of the traffic by the government. Between these two firestorm fires, the government sees the only safe and fair way to be that of submitting the question in a clear cut form to the people to let all the electors say exactly what they want.

Meanwhile, the moderation league will be asked to submit a draft of a bill embodying their views on government control and the sale direct by the government through vendors under a permit system of all kinds of liquors, including wine and beer. With such a draft act, it is thought that the question could be thoroughly threshed out, so that in the future there can be no misunderstandings on the subject, whichever way the vote went.

If the plebiscite for government control were defeated, there would then be nothing left for the government to do but to enact legislation of

the most stringent character to make Alberta "bone dry" and provide a large appropriation for enforcing prohibition by means of the severest kind of penalties.

**Grain Going West**

Vancouver is developing as a grain shipping port. More wheat was shipped from that city this season than in the entire time since the Panama Canal opened. The Vancouver-Panama route has proved its feasibility for grain that is not wet, and in other years, if grain is not as dry as it has been this year, equipment for preparing it for shipment can be installed in the elevators at the coast city.

One freight car can deliver twice as much grain to the sea-coast in a specified time by taking it from Edmonton or Calgary, as from Winnipeg to Fort William. The railway companies state that seventy-five per cent of the cars for lumber from the coast must go to Vancouver empty. Now that the west route for wheat has been demonstrated, it is logical to assume that before long these cars will be filled with wheat before starting on their trip to the Pacific.

Maybe they call it Wall street because nothing that gets in there ever succeeds in getting out.

**Liquor Act Plebiscite**

A provincial plebiscite to allow the people of Alberta to say whether they wish direct and full government control of the liquor traffic, or further restrictive legislation to make the province "bone dry" will be submitted to a vote in Alberta late next summer or early in the fall.

At the caucus of government private members with cabinet ministers a few days ago this policy was discussed at length and met the individual approbation of the majority of members present, and about the only question agitating the members it at what date the plebiscite should be held. A majority of them appear to favor holding it late in the year in order to give the fullest possible opportunity to those supporting prohibition and a "bone dry" province, and to discuss publicly on the platform the merits of government control versus a prohibition "bone dry" policy.

In the meantime, it is proposed that very little change be made in the present liquor act. It is likely that a regulation will be approved reducing the amount of liquor which may be sold on a physician's prescription, from 40 ounces to 24 ounces, a reduction of some 16 ounces. There is also a possibility, that pending the plebiscite, the number of prescriptions which a physician is allowed to write monthly may be cut from 150 per month as at present to 100 or even 75. These changes, however, would be changes in the regulations fixed by the attorney general's department and not an amendment to the act. There is considerable question as to the legal right of the province to limit the right of physicians in prescribing liquor but no effort has been made to raise the issue in the courts, and it is not likely that these further regulatory restrictions would be questioned, especially as the whole question would soon be settled one way or other by a vote of the electors of the province.

The weight of opinion of private members in favor of holding a provincial plebiscite on the subject of government control is swayed by the recent plebiscite prohibiting interprovincial shipment of liquor, and

**Railways Deficit**

The annual statement of the Canadian government railways shows in detailed statistics that the operating deficit (including fixed charges) on government lines last year was \$69,593,441, in comparison with an operating deficit of \$48,242,536. The increased loss of twenty-one millions was attributed to increased expenditures on payrolls, fuel, materials, equipment and supplies. Out of every dollar earned by the government lines 75 cents went in operating wages, 20 cents in fuel, leaving only 5 cents for all other requirements. These other requirements, actually called for an expenditure of 29 cents on each dollar earned.

**New Method  
Of Treating  
Oats For Smut**

A method for treating oats for smut without entailing the necessity of drying them has been devised. In using this method one part of formaldehyde is added to ten parts of water and applied to the oats by means of a common quart sprayer. Spread the grain out in a clean floor, canvas or wagon box. As the grain is shovelled from one pile to another, each shovelful is sprayed with the sprayer held close to the grain. Use the solution in the proportion of one quart

WANTADS SELL QUICKLY

of the solution to five bushels of grain. Cover the grain with sacks or canvas which have been sprayed thoroughly, and leave covered for four hours. By using this small amount of the solution the seed is not wet, does not swell and may be treated any time before planting. This method is recommended by the authorities in Idaho.

A similar method has been used with success by the Central Experimental Farm, which recommends it for oats, barley and wheat.

**Short Course  
Dairying Schools**

In connection with the new department of dairying at the University of Alberta, short courses in dairying commenced Tuesday and will continue until April. The course for creamery operators and butter makers is intended primarily for men who have had some practical experience in creamery operation. In order to serve as many as possible, compulsory attendance at all the lectures or for the full course is not necessary. This will allow those who cannot spare the time for the full two weeks to get what they can from the lectures and demonstrations, includes three standard types of power churns used in the province. Provincial dairy instructors and graders will assist as instructors in the courses. No fees will be charged.

Practical work will be given in the receiving, sampling, weighing, grading and testing of cream; the standardization (neutralization) of acidity in cream for butter making; the pasteurization of cream; the operation of different types of churns, the packing of butter for the market; the testing of butter for moisture, butter fat, salt, curd, and pasteurization; the scoring and grading of butter.

The testing laboratory is equipped with the various tests used in modern creamery work and good facilities are provided for the students in the use of these tests. Instruction and practice will here be given in the sampling, weighing, grading, and testing of milk, cream and butter. Lectures will be given on the more important phases of the creamery business especially the manufacture and marketing of high grade butter.

Instruction and practice will be given in the creamery and testing laboratories, in the use of Babcock test and the acidimeter, and in the weighing sampling, grading and testing of milk and cream, and the records that are to be kept in connection therewith.

Lectures will be given on the sanitary production, the composition and care of milk and cream; the Babcock test and the acidimeter; causes for variation in cream tests; the farm cream separator; the grading of cream and the management of cream stations; sanitation and records; forage crops for, and the management of dairy cattle.

**Prospect Valley**

**Social: April 1st**

A concert and box social will take place in Prospect Valley school Friday April 1st at 7.30. The proceeds will be devoted to the purchase of an organ for church service. All come and help.

**L.D.S. Bazaar**

**Ribstone March 31**

The Ladies Auxiliary of the L.D.S. Church intend holding a bazaar on March 31 in the Municipal Hall, Ribstone. The ladies will also have a lunch counter at which an excellent lunch may be had at moderate charge. Everybody welcome.

**A "Daffy Party"**

A "Daffy" party will be given by the Chauvin Women's Institute, on All Fool's day, in the Oddfellow Hall, beginning at 8 o'clock.

Are you willing to be made a fool of, if not come and make a fool of the other fellow, and fifty cents is not too much, is it? for the joy of doing that.

There are, according to a recent discovery, in the neighbourhood of six million germs on one house fly. The ordinary person would have let this pass unnoticed.

**La Pearl Concert**

**Social: April 5**

A concert and box social will take place at LaPearl church on Tuesday April 5th 1921. The proceeds will be used for the purpose of painting the church. All come and help in this good effort.

**Scotts Simplified**

**Accounting System**

**For Farmers Use**

Its forms cover in one book a complete statement of your farm operations—month by month—for a period of five years.

So simple that any man who can read and write may keep a perfect system of accounts.

So accurate that any bank will accept a report based on its showing.

So complete that a farmer can tell at a glance just where he stands financially—where the leaks are in his farm operations.

The only system with which is given a systematized pocket note book, and which simplifies your income tax return.

The system may be obtained from The Chauvin Pharmacy.

To whom would you loan your hard earned cash? To the man who keeps accurate accounts or to the man who never knows just where he stands financially.

**Gopher War In  
Saskatchewan**

How to reduce the number of gophers is a problem that seems near solution in Saskatchewan. The Department of Agriculture of that province, in 1920, conducted a gopher contest in the schools, with the result that 1,798 schools entered, and 2,019,233 gophers were destroyed, at a cost to the department of \$3,159.75, or .156 cent each. What this reduction in the number of gophers means in the saving of foodstuffs is hard to estimate, but it would be very great, as an analysis of the pouches of one gopher showed 357 kernels of whole oats.
